Subject The Carlyle Group Buyout

Aloha,

I have been reading, with interest and fear, the proposed buyout of Verizon Hawaii by The Carlyle Group. I must officially oppose this buyout for reasons that have previously been stated in the public forums that have already been held but also because I see a wolf in sheep's clothing!

Does it seem a bit coincidental that this company is so very eager to buyout our communications system directly on the heels of the Stryker Brigade being FORCED upon our peaceful paradise despite the amassed protest against it?!? So eager in fact, that they have promised us the sky in order to successfully get their proverbial 'foot in the door'?!? Not to mention their direct ties to the defense(?) and military programs?!?

I urge you to put a halt to the rape and pillage happening here!!!!!! It should most definitely stop now!!!!!!

Signed,  
One Very Concerned Local
